

MILLER FALCON™+ CABLE SELF-RETRACTING LIFELINE

Building on the strong legacy of its predecessor, we designed the Miller Falcon+ to help workers at height stay safe even in the most demanding working conditions. The new SRL features an extremely durable, impact-resistant nylon housing that can withstand the harsh rigors of the toughest applications.

Now a part of the PLUS family of newly-redesigned self-retracting lifelines, we've developed the Falcon+ cable SRL version that meets the EN360 standard. It is rated to provide protection for workers up to 160kg and showcases new user-friendly labels and a design that aligns with the Honeywell Miller harnesses.

MATERIALS

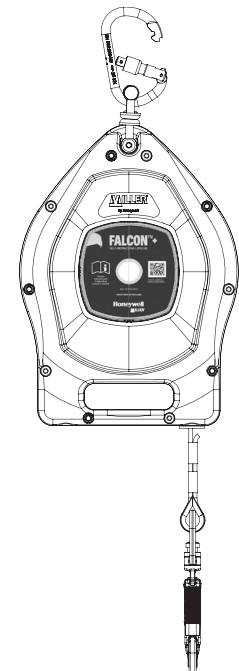

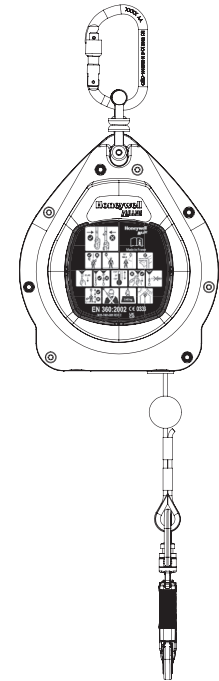

Housing:	High impact-resistant nylon
Lifeline diameter:	4.5 mm
	Galvanized/ stainless-steel cable
Snap Hook:	Galvanized, zinc-plated steel
Carabiner:	Galvanized, zinc-plated steel
Hub:	Stainless steel
Braking Mechanism:	Brass and stainless steel

TECHNICAL

Improved Maximum Working Load:	160 kg
Working Length:	6.2 m, 10 m, 15 m, 20 m
Maximum Arrest Distance:	< 2m, when tested to EN 360
Maximum Peak Arresting Force:	6.0 kN, when tested to EN 360
Breaking Strength:	12 kN, for 3 minutes

CERTIFICATION

Meets EN360 standard
