

# Miller® Pole Straps

## Product description

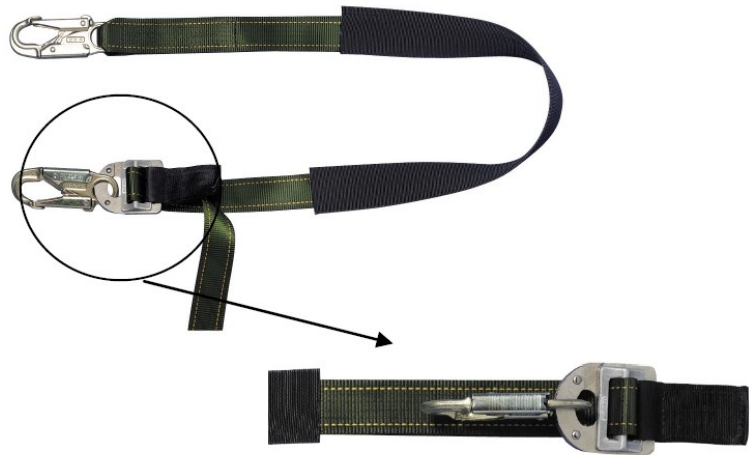

The Miller® Pole Strap range is fully adjustable, allowing for various work positioning applications. Available in four different lengths to suit the user's requirements.

## FEATURES

- The Pole strap adjuster enables quick and easy changes to the length of the strap.
- Adjuster is located on the hook and is within easy reach of the worker.
- A protective sleeve assists in maintaining the life of the strap.
- Designed for use so that it constantly is in tension once it is in the working position.
- The pole strap is capable of being positively secured when passed around a pole or similar structure.
- Available in a choice of lengths.
- Minimum adjustment down to 900mm.
- Double action 19mm hooks each end.

## APPLICATIONS

- Work positioning applications
- Pole top work
- EWP

## Technical Information

Manufactured from 48mm polyester webbing with a 65mm heavy duty outer sleeve.

## Standards

Certified to Australian and New Zealand Standards AS/NZS 1891.1 - 2007.
