

Miller® Sharp Edge Lanyards

Product description

The Sharp Edge Lanyards developed by Miller offer workers the ideal solution when working near sharp edges. The range features many different combinations from fixed length to single adjustable lanyards, and double fixed length to double adjustable lanyards with a variety of connector options. The Miller Sharp Edge Lanyards are versatile and suitable for various fall arrest applications.

FEATURES

- Miller Sharp Edge Lanyards feature an external energy absorber which allows for visual indication of a sustained fall.
- Available with a variety of connector options to suit different applications.
- For use in fall arrest situations where the free fall doesn't exceed 2 metres.
- When estimating free fall distances, the extension of the energy absorber must be taken into consideration. The maximum energy absorber deployment is 1.75m
- Adjustable lanyards allows the user to minimise fall risks by adjusting the lanyard to suit the job.
- Manufactured out of robust kernmantle rope for greater abrasion resistance.

APPLICATIONS

- Construction & Maintenance
- Any work at height application

Technical Information

Manufactured from robust 12mm sharp edge rated kernmantle rope.

Standards

Certified to Australian and New Zealand Standards AS/NZS 1891.1 - 2007.
