

Miller® Tripod

Product description

The Miller Tripod is the anchorage connector for typical confined space and rescue situations.

FEATURES

- Light-weight, high-strength aluminium construction.
- Withstands up to 22kN of vertical pull.
- The tripod is suitable as an anchor point for a single person only, its maximum carrying capacity is 181.4kg.
- In a rescue situation the Tripod is suitable for two people provided the combined weight of the two people does not exceed 181.4kg, in which case they will need to be rescued individually.
- Adjustable legs with integral push pins, ideal for uneven surfaces.
- Independent leg locking feature holds the tripod legs securely in place.
- Safety chain and tripod feet with rubber skid pads and serrated edge prevent slippage in icy conditions.
- Available with reflective tape.
