

SUSPENSION SEATS

SUSPENSION WORK MADE EASY.

THE ULTIMATE IN FALL PROTECTION

PRODUCT SHEET

SUSPENSION WORK MADE EASY.

DBI-SALA's Suspension Seat range provides versatility and comfort when working in suspension for long periods of time.

SUSPENSION SEATS

DBI-SALA's Suspension Seats are designed for use with a fall arrest, work positioning or rescue harness to provide added versatility, comfort and support when working in suspension, or in industrial rope access applications. Ideal for use in rescue, suspension & rigging, suspension seats reduce fatigue when suspended in a harness for long periods of time, while allowing complete leg mobility and freedom of movement for climbing.

1150414 | Suspension Seat

The 1150414 suspension seat has been designed for use with any brand /style of harness. Simply connect the two webbing connector straps of the seat to the frontal attachment point of your harness with a karabiner.

FEATURES

- Wide sturdy seat for added stability and mobility when working in suspension
- Cushioned padded seat with breathable mesh lining provides the ultimate in comfort and performance when working in suspension for long periods of time
- Rigid side edges prevent the webbing straps cutting into the thighs
- 3 PVC coated gear loops accommodate and provide easy access to essential tools and equipment
- Self locking, easy adjust hardware allows the seat to be adjusted for varying degrees of suspension
- Easily positioned on back when not in use, enabling the user to climb unhindered to their required work location
- Lightweight design
- Durable construction for extended service life

1150011 | Suspension Seat

The 1150011 suspension seat has been specifically designed for use with the ExoFit NEX™ Climbing, Sit, Wind Energy and Derrickmans harnesses. This seat connects to the above mentioned harnesses through the work positioning D-rings on their waist belt.

FEATURES

- Sturdy seat with aluminium insert for added stability and mobility when working in suspension
- Cushioned padded seat with breathable mesh lining provides the ultimate in comfort and performance when working in suspension for long periods of time
- Unique design allows the seat to be clipped up out of the way with the integral storage clips, enabling the user to climb unhindered to their required work location. Once in position, the seat can be easily released for use in work positioning mode.
- Incorporates suspension D-rings that can be folded back and secured to the seat when not in use.
- Lightweight design
- Durable construction for extended service life

Note: Suspension Seats do not provide any fall protection and must be used with a separate fall arrest system, secondary safety line or back up safety device.
