# SVLB-15 3 Way Retracting Lifeline/Recovery Device

This self retracting lifeline offers fall protection when entering or exiting confined spaces. Anchored above the user, it provides a safe area of work. The retracting line pays in and out of the device as the user moves.

In the event of a fall a brake engages, arresting the fall of the user with a controlled deceleration force. Additional feature of an easy to deploy emergency winch function. It has an aluminium casing, giving a robust yet lightweight performance. The swivel fall indicator hooks are standard.

This 3 way can be mounted onto a tripod or davit arm for access and egress from a confined space. An individual serial number is stamped on the swivel eye on the top of the device.

## FPRB-15 3 Way Retracting Lifeline

Description	
Maximum Working Load Capacity	150kg
Weight	10.4kg
Cable Material	Galvanised Steel
Casing Material	Cast Aluminium
Cable Length	15m
Certifications	BSEN360:2002 BSEN1496

## Training Courses

### Height Safety
