MAX LOAD : 45KG / 100LBS

SCAFFOLD TUBE LIFTING BAG

TRANSPORT & STORAGE

CODE : H01101

Safely lift, transport & store multiple tubes of up to 1.8m / 71" in length with the GRIPPS Scaffold Tube Lifting Bag, and create a safer and more efficient job site.

A Hypalon reinforced base on the bottom resists punctures, and fully sealable enclosure at the top ensures that all contents of the bag stay safe and secure at all times.

Constructed with industrial-strength cotton canvas, the Scaffold Tube Lifting Bag is engineered to provide superior longevity and durability for all industrial construction and maintenance activities.
