

# ACX POWER ASCENDER

Power lifting for regular high-risers

- > CIVIL CONSTRUCTION
- > ELECTRICAL UTILITIES
- > ROPE ACCESS WORKERS
- > RESCUE SITUATIONS
- > TELECOMMUNICATIONS

# YOUR PERSONAL ON-SITE ELEVATOR

## > POWER LIFTING YOUR PERSONNEL

Having a Skylotec ACX Power Ascender is like having your own personal elevator on-site. Easy to set-up and use, this portable battery-powered ascender will get you up, down and around your site in less time using less energy

This illustration shows the standard set-up for power lifting personnel. As always, the safety first rules for rope access work at height still apply - in particular, always use a backup system.

## > POWER LIFTING YOUR EQUIPMENT

Lightweight but with heavy lifting capacity and multiple rigging options, the remote-controlled Skylotec ACX Power Ascender is the perfect tool for hauling your equipment from A to B.

**Top-rigged**

Four commonly used setups for equipment lifting

# POWERFUL, PORTABLE AND EASY TO USE

The Skylotec ACX Power Ascender has the portable pulling power you need to work anywhere

Self-locking  
enclosed rope  
grab system

Light  
**13kg**  
weight of kit

Powerful  
**200kg**  
lifting capacity

Battery range  
**200m**  
with 100kg  
load

Fast  
**0-24**  
metres/min

Tough  
**IP55**  
protection

Easy-to-fit and  
rapidly-charged  
battery with  
intelligent electronic  
management system  
and LED indicator

Remote control  
with a range of  
up to 150 metres

Easy operation  
via bi-directional throttle

Fast-setup with unique  
rope grab system

# JOIN THE POWER LIFTING REVOLUTION

The Skylotec ACX Power Ascender is a revolutionary rope ascender, ingeniously designed to deliver heavy-duty lifting capacity in a lightweight portable kit that's fast to set-up and easy to use.

We believe the pulling power of this powered ascender will ultimately redefine the possibilities for vertical work environments. Both in day-to-day settings (civil construction, electrical utilities, telecommunications) and in remote or difficult access environments (ie offshore wind turbines, alpine rescue operations).

Already, power ascenders are in use and increasing demand across the world - and we can see why. Much like shifting from a manual to electric bike, once you've tried it you won't want to go back.

So if you're ready to join the power lifting revolution, talk to the team at Height Dynamics about the Skylotec ACX Power Ascender.

## TECHNICAL DATA

**ACX POWER ASCENDER KIT**  
POA-001

**i** ACX in a high-quality storage and transport box including battery, battery charging device, DOUBLE-O TRI carabiner, short instructions.

	200kg
	0-24 m/min
	13kg
	33 x 28 x 27 cm
	1.25 x SWL
	IP 55
	-20° to +40°C

**ACX REPLACEMENT BATTERY**  
POA-002

- i** Rapidly charged battery with electronic management system and LED indicator
- 200m with 100kg load
- 90min
- 20° to +40°C

**ACX REMOTE CONTROL**  
POA-003

- i** Additional remote control for ACX
- Up to 150m
- 20° to +40°C
