

# Miller® SafEscape™ Elite Rescue Descent Device

## Product description

During the rescue or evacuation of a person working at height, safety is of paramount importance. That is why Miller developed the next generation rescue solution. The SafEscape ELITE will take you to safety even under the harshest conditions. Standard kits are available in 20m, 40m & 80m configurations (see table below for details). Specific lengths of rope can be manufactured on request.

## FEATURES

- The position and design of the hand wheel reduces swaying during lifting, facilitating the evacuation procedure
- The centrifugal brake controls the decent and reduces vibration making decent quick and smooth (1m/s)
- Decent loads possible from 30kg to 250kg (2 people)

## APPLICATIONS

- Wind Energy
- High Voltage Masts
- Cranes
- Any areas normally inaccessible by conventional means.
