EAN: 4030281213123

E-class number: 40-02-01-02

Customs no.: 63079098

Data sheet

ARG 30 BFD

The high-performance full-body harness ARG 30-BFD featuring an INTEGRAL LANYARD is the allrounder for maintenance work, construction, confined space and the Hire industry.

The adjustable buckles in the shoulder and leg areas mean that the ARG 30-BFD can be quickly put on, taken off and adjusted.

The harness features a BFD webbing lanyard (2.0mt) sewn into the rear fall arrest rated D-ring with a 15kN rated double action snap hook on the lanyard end. Also featured is a steel D-ring fall arrest rated sternal attachment point. The adjusters at the shoulder and leg straps allow this D-ring to be positioned correctly on the sternum of the wearer.

A sewn in fabric patch between the rear shoulder straps allows a customer's logo to be screen printed onto it.

The ARG 30-BFD also has confined space retrieval loops that self adjust to the point of the shoulder ensuring a vertical lift.
