

MAX LOAD: 1.5KG / 3.3LBS

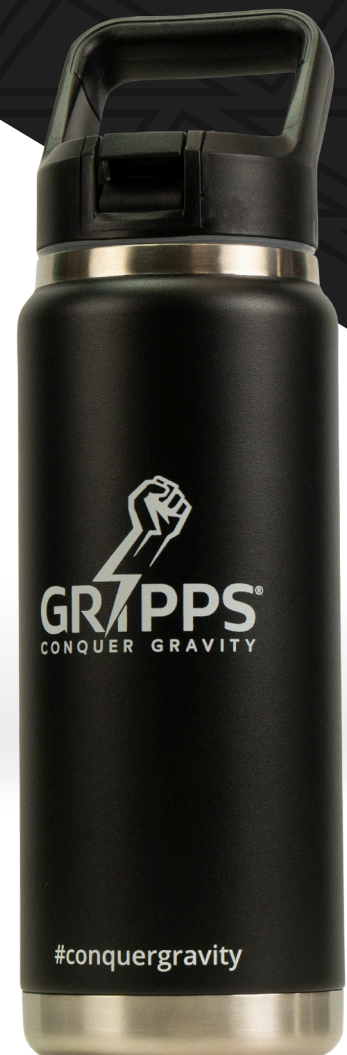

WATER BOTTLE INSULATED STAINLESS STEEL

H02020

Stay hydrated whilst at height! This unique water bottle provides a direct attachment point for tethers, making it much safer than regular bottles.

The Water Bottle for heights! Double-wall vacuum insulated, load-rated, and built with stainless steel – keeping your drinks icy cold, and protected from ever taking a dive when aloft! Including a secure attachment point at the top of your lid, your bottle can easily be connected to a tether or tool attachment.
