

Miller® Escape Master

Product description

The Escape Master is a descent device which is fitted onto the side of an elevated working platform. It contains kernmantle rope and a descender for quick and easy descent from the working platform in case of an emergency.

FEATURES

- Escape Master contains - kernmantle rope with descent unit, and EP plates
- Descent can be easily controlled by user or person on the ground.
- Highly visible load density polyethylene deployment container.
- Smooth outer box surface which is easy to clean.
- Very high impact resistance that will not shatter allowing for re-use.
- Quick release pin on box lid for easy set up.

APPLICATIONS

- Elevated working platforms
