- 99 Stainless Steel Scaffold Key 7/16
- 99 Scaffold Ratchet

YOU NEED MORE THAN JUST THE EQUIPMENT YOU NEED A STRATEGIC PARTNER

You are forward-thinking. You are strategic. You are not interested in the bare minimum when it comes to implementing safety procedures; you establish class-leading strategies to ensure maximum efficiency and safety. **You are a leader of the modern workforce.**

Target: Zero Drops is your strategic partner to assist you in delivering your goals. A true 360° solution, Target: Zero Drops delivers a range of modular solutions, allowing you to achieve best-in-class results for working safely with tools at height. The comprehensive suite is built on the foundation of a true partnership, delivering ongoing support and real-time results, ensuring you deliver on your safety and efficiency targets.

TRAINING RISK ASSESSMENT EDUCATION

A MODULAR APPROACH

BUILD YOUR OWN SUCCESSFUL STRATEGY

Target: Zero Drops is a 360-degree commitment to safety through the emphasis placed on culture and education. We know that it is simply not enough to identify the equipment required and have it on-hand for workers operating at height.

A deeper level of understanding and acceptance is required from the end-user, to ensure that best practices are employed when working at height, and the impact of a dropped tool is nullified at the very start of any possible incident, instead of relying on the secondary measures such as drop-zones, catchment nets etc.

By targeting the weak spots in a dropped-tool prevention strategy, Target: Zero Drops allows the company or project leader to bring about meaningful change to on-site safety procedures at any stage of the project life cycle.

MODULE	OBJECTIVE
1	SITE & PROCESSES AUDIT
2	AWARENESS & CULTURE
3	CERTIFIED TRAINING
4	COMMUNICATION
5	ONGOING RESULTS MANAGEMENT

ON-SITE AUDIT

The GRIPPS® on-site audit is a critical part of risk assessment for works at height, allowing you to address any blind-spots before they become incidents.

Our certified auditors will travel to your project worksite and assess all operations at height, providing a comprehensive report identifying risks and solutions.

CODE: H05010

TOOL TETHERING MANDATORY SIGN

Corflute mandatory sign. "TOOL TETHERS MUST BE USED WHEN WORKING ABOVE 2 METRES". Custom branding available. Complies with AS 1319 regulations.

CODE: HS-4010

TRAINING

Available on-site or in our accredited training facility. Get theoretical and hands-on training in tool tethering and risk-assessment best practices.

Our certified trainers deliver a course that creates experts in working safely at height with tools; educating on best-practices for a wide range of industrial applications, tools and equipment.

CODE: H05000

AWARENESS SESSION

The first step in a successful Dropped Object Prevention Strategy is building awareness around the risks associated with working at height.

Whether it's a toolbox talk, lunchroom presentation or live dropped object demonstration, we can help you drive awareness and change habits.

Leave a lasting impression with a keynote address from dropped-object survivor and brand ambassador Paul Weatherson, who intimately discusses the human cost of a dropped object incident.

CODE: H05030

COMMUNICATIONS PACK

Eye-catching and tightly focused on the risks around dropped tools, our educational materials provide the ongoing reminders your team needs to stay safe; tethering their tools as part of their daily operations.

All of these materials can be personalised and branded as required.

WHAT'S IN THE PACK:

- 7 x A2 Posters Printed On Thick 200GSM Paper
- 2 x Outdoor Vinyl Banners (78cm x 183cm OR 122cm x 183cm)
- 10 x Corflute Tool Tethering Mandatory Sign
- 20 x Drink Bottle/Spray Can Holsters
- 50 x Impact Force Warning Pens
- 50 x Dropped Tool Checklist
- 7 x Digital Poster Files
- 5 x Email Banners
- 5 x Animated GIF Banners

CODE: H05020

CATT TOOL CONNECTORS

TOOL CONNECTORS

TOOL RING

SHORE
SOLID

Tool Rings are the most economical solution for creating a load rated tool connection point. Suitable for a vast range of hand tools, Tool Rings are quick and easy to apply.

KEY FEATURES

- Quick, easy installation with no special tools or equipment required.
- Certified & load rated.
- Available in three sizes.

MAX LOAD	SIZES	CODE
1.0kg 2.2lbs	19mm 0.75"	H01036
1.0kg 2.2lbs	25mm 1.0"	H01037
1.0kg 2.2lbs	38mm 1.5"	H01038

*Tool Rings sold in packs of 10

SCREWLOCK CABLE

SHORE
OPEN

The Screwlock Cable provides a quick, easy and cost-effective way to create a certified, load rated tool connection point for tools with a suitable existing hole.

With a core band made from aircraft-grade steel, the load rated and certified Screwlock Cable is as dependable as it is hard-wearing.

Create your secure tool connection point by simply threading the Screwlock Cable through a suitable existing hang-hole/slot in your tool, and screw closed. Add a drop of thread-locking compound before you screw shut to create a permanent load rated connection point on your tools.

KEY FEATURES

- PU coated aircraft-grade steel.
- Easy to maintain & swap between tools.
- Easy installation process that can be performed on-site.
- Can be locked permanently using thread locking compounds.
- Available in four sizes.

ANSI/ISEA 121-2018 COMPLIANT

MAX LOAD	SIZES	CODE
1.0kg 2.2lbs	3.0mm x 12cm 0.1" x 4.75"	H01030
1.0kg 2.2lbs	3.0mm x 15cm 0.1" x 6.0"	H01031
2.0kg 4.4lbs	4.0mm x 16cm 0.15" x 6.25"	H01032
2.0kg 4.4lbs	4.0mm x 20cm 0.15" x 8.0"	H01033

TOOL CATCH

The Tool Catch provides a robust, stable and durable retrofit tool connection point for a vast range of hand tools.

Attach the Tool Catch to your tool with V-Gripp Tape to create a certified, load rated tool connection point that will survive tough industrial conditions.

KEY FEATURES

- Tactical Nylon for maximum strength.
- Closed metal ring that prevents warping with use.
- An easy installation process that can be done on-site.
- Fully certified & load rated when used with V-Gripp Tape.
- Available in two sizes & in non-conductive.

ANSI/ISEA 121-2018 COMPLIANT

MAX LOAD	SIZES	CODE
1.0kg 2.2lbs	12mm x 55mm 0.5" x 2.25"	H01005
2.5kg 5.5lbs	25mm x 90mm 1.0" x 3.5"	H01006

SHORE SOLID

V-GRIPP TAPE

V-Gripp Tape uses self-vulcanising technology to create a load rated tool connection point without the use of any adhesives.

Used in combination with the GRIPPS® Tool Catch and Tool Hitch range, V-Gripp Tape is extremely easy to apply, bonding to itself instantly on application.

Resistant to heat, water and oil, V-Gripp Tape is extremely durable and recommended for use on-site and in extreme working conditions.

KEY FEATURES

- Self-vulcanizing - no chemical adhesives.
- Heat resistant to 150°C/302°F.
- Resistant to water & oil.
- Extremely resilient and long-lasting.
- Compatible with GRIPPS® tool connectors.

ANSI/ISEA 121-2018 COMPLIANT

3 x (H01006) Tool Catch	

NON-CONDUCTIVE TOOL CATCH

The Non-Conductive Tool Catch is designed to provide a retrofit tool connection point suitable for a live electrical environment.

Attach the Non-Conductive Tool Catch to your tool with V-Gripp Tape to create a load rated, non-conductive tool connection point that is suitable for a wide range of hand tools.

KEY FEATURES

- Tactical Nylon for maximum strength.
- Strong & durable non-conductive poly-carbonate ring.
- Easy installation process that can be done on-site.
- Fully certified and load rated when used with V-Gripp Tape.

ANSI/ISEA 121-2018 COMPLIANT

NON-CONDUCTIVE

MAX LOAD	LENGTH	CODE
1.0kg 2.2lbs	12mm x 55mm 0.5" x 2.25"	H01007

SHORE ELECTRICAL

INSTALLATION INSTRUCTIONS:

STEP 1: Cut a strip of V-Gripp Tape approximately 30cm/12" to 40cm/16" long depending on the size of the tool handle. Peel plastic coating away from the wrap. Tape should wrap 10-12 times around the tool. **Note:** Never use a Tool Catch with V-Gripp Tape on the tapered portion of a tool.

STEP 2: Place a Tool Catch so that the ring of the Tool Catch is facing away from the centre of gravity of the tool. Ensure that when installed, the Tool Catch will not interfere with the safe working condition of the tool. Make sure the tool is free of debris which would interfere with the bonding of the V-Gripp Tape.

STEP 3: Wrap the tape around the tool while stretching the tape. It is critical to stretch the tape while wrapping, as this activates the tape and causes it to self-vulcanize creating a secure connection.

STEP 4: Once the connection is complete, test the connection to ensure proper installation has taken place.

IMPORTANT: Remember to always inspect the connection prior to each use for damage or irregularities that might affect the connection.

GRIPP SHRINK

After using V-Gripp Tape and Tool Catch's to create an attachment point, Gripp Shrink can be used to create an even stronger connection that is extremely resistant to abrasives and harsh environments.

KEY FEATURES

- Provides additional protection for V-Gripp Tape.
- Quickly shrinks & protects when exposed to heat.
- Extremely resistant to abrasives.

SIZE	CODE
19mm x 45mm 0.75" x 1.75"	H03000
25mm x 45mm 1.0" x 1.75"	H03001
38mm x 51mm 1.5" x 2.0"	H03002
38mm x 76mm 1.5" x 3.0"	H03003
51mm x 100mm 2.0" x 4.0"	H03004
76mm x 100mm 3.0" x 4.0"	H03005

*Gripp Shrink sold in packs of 25

SHORE OPEN

SWIVEL CATCH

The Swivel Catch works to prevent tangles when working with hand tools at height.

A load rated swivel point allows for a 360-degree operational range of motion, while the cord loop provides an easy and efficient tool choke that connects directly to your tools existing suitable hang-hole, slot or closed handle.

Tether your tool with a lanyard or coil to the Swivel Catch's metal ring and then anchor to your glove, belt or another anchor point.

KEY FEATURES

- Connects to existing hang-hole, slot or closed handle.
- The strong steel ring is mounted on a swivel point, providing a full 360-degree range of movement.

ANSI/ISEA 121-2018 COMPLIANT

MAX LOAD	LENGTH	CODE
2.5kg 5.5lbs	13cm 5.0"	H01021

TOOL-HITCH

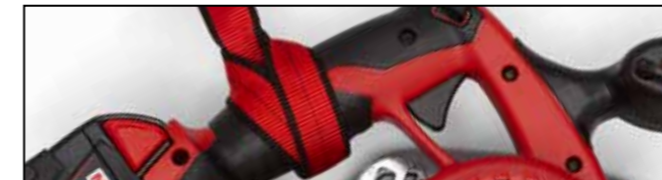

A simple choking mechanism allows the Tool-Hitch to secure closed-handled power tools without the need for any additional adhesives or equipment.

By creating a loop around an enclosed handle, the Tool-Hitch produces a simple yet robust tool connection point, that is then able to be tethered to an anchor point.

For application on 'open' tools, such as a sledgehammer handle, the Single Arm, Dual Arm and Heavy-Duty Tool-Hitch variations allow you to anchor the Tool-Hitch in position with the use of V-Gripp Tape.

KEY FEATURES

- Instantaneous application to tools with an enclosed area.
- No need for additional adhesives or equipment.
- Tactical grade Nylon for maximum strength.

SHORE HEAVY

ANSI/ISEA 121-2018 COMPLIANT

MAX LOAD	CODE
16kg 35lbs	H01055

SINGLE ARM TOOL-HITCH

Suitable for 'open' or 'closed' power tools, the Single Arm Tool-Hitch has a simple choking mechanism that creates a secure and robust tool connection point.

For 'closed' tools, such as a power saw, the Single Arm Tool-Hitch can loop through itself to create a choke.

For 'open' tools, such as a power drill, the Single Arm Tool-Hitch is secured against sliding up or down the handle by securing the single-arm with V-Gripp Tape.

KEY FEATURES

- Creates a load rated tool connection point for both 'open' & 'closed' tools.
- Tactical grade Nylon for maximum strength.

SHORE HEAVY

ANSI/ISEA 121-2018 COMPLIANT

MAX LOAD	CODE
16kg 35lbs	H01056

TOOL CONNECTORS

DUAL ARM TOOL-HITCH

SHORE
HEAVY

The Dual Arm Tool-Hitch is suitable for heavy 'open' tools such as crowbars and sledgehammers.

The Dual Arm Tool-Hitch loops through itself to create a simple yet strong choke. To stop the Tool-Hitch from sliding up and down the tool, secure the two arms using V-Gripp tape.

The tool is then tethered directly to a load rated anchor point via the heavy-duty tool ring on the tail.

KEY FEATURES

- Creates a load rated tool connection point for heavy 'open' tools.
- Tactical grade Nylon for maximum strength.
- Heavy-duty closed metal D-Ring.
- Available in two sizes.

ANSI/ISEA 121-2018
COMPLIANT

MAX LOAD	CODE
16kg 35lbs	H01057
36kg 79lbs	H01058

PHONE & TABLET GRIPPER

ANSI/ISEA 121-2018
COMPLIANT

Now you can tether your phone, tablet or mobile device without the need for a permanent or semi-permanent connection point. Used in conjunction with a load rated tether, the Phone Gripper and Tablet Gripper use purpose-built silicon to create a load rated tethering solution with zero impact on device operation.

Traditional mobile device tethering relies on the use of powerful adhesives being applied directly to your mobile device to attach a load rated connection point that damages the devices finish when removed.

The flexible design of the Phone/Tablet Gripper allows you to tether your mobile device 'on-demand', allowing you free use of your mobile device when not operating at height.

KEY FEATURES

- Custom silicon compound made for strength & grip.
- Avoids installing a permanent connector point on a mobile device.
- No additional adhesives required.
- Integrated, load rated tether connection eyelet.
- Compatible with virtually every smartphone/tablet model.

PHONE GRIPPER		
MAX LOAD	CODE	CODE WITH TETHER
0.3kg 0.7lbs	H02039	H02039P
TABLET GRIPPER		
MAX LOAD	CODE	CODE WITH TETHER

LITTLE GRIPPER

SHORE
ROTATING

If you need a tool tethering solution that's quick to apply and doesn't hamper tool functionality, then you need a Little Gripper.

Moulded from a specialised TPU material, the Little Gripper provides an instant load rated tool connection point without the need for adhesives.

Compatible with round and polygonal-shaped shafts, the 4 sizes cover a massive range of tools including screwdrivers, chisels, punches, pliers, pens, pry bars and more.

KEY FEATURES

- Moulded from custom German engineered TPU compounds.
- No additional adhesives or tools required for application.
- UV protected for long-lasting outdoor use.
- Compatible with tool shafts of all shapes & thicknesses.

E-CATCH

SHORE
SOLID

The E-Catch features heavy-duty industrial-grade VHB adhesive, allowing it to attach to almost all surfaces, creating a load rated tool connection point instantly.

Designed with electronic devices in mind, the E-Catch has a flexible, notched design that allows it to adhere to curved surfaces.

When attached to mobile phones, cameras, radios and other handheld electronic equipment, the low profile of the E-Catch keeps it from interfering with any functionality.

KEY FEATURES

- Ready to use immediately after application. Cures completely in 24 hours.
- Flexible, notched surface adheres to curved surfaces.
- Features heavy-duty industrial-grade VHB adhesive tape.
- Connects to the GRIPPS® Electronic Tool Tether.
- Low profile that does not interfere with device functionality.

CATT TETHER ANCHORS

TETHER ANCHORS

C5 FLEXILITE MKII

ANSI/ISEA 121-2018
COMPLIANT

The new and improved C5 FlexiLite MKII features exceptional flexibility and comfort with a super lightweight, cut-resistant finish.

Like all GRIPPS® gloves, whenever you're carrying the C5 FlexiLite MKII around the worksite, you're also carrying a fully load rated drop prevention system. The patented tether anchor point is engineered directly into the glove and is load rated for any tool weighing up to 2.5kg/5.5lbs.

The key benefit of tethering to your wrist is the ability to maintain full dexterity and range of motion while on the job. With nothing attached to a belt or external structure, you're free from tangles, tension and catches.

The C5 rated gloves are manufactured from a super lightweight HPPE knit-liner and double-coated with a sandy foam nitrile, combining maximum cut resistance and dexterity with long-lasting grip. This is a glove that's engineered to last.

KEY FEATURES

- Improved flexibility & overall user comfort.
- Super lightweight HPPE knit liner providing maximum cut resistance.
- Double coated sandy foam nitrile for long-lasting grip.
- A load rated tether anchor everywhere you go.
- Maintain full usability of tools.
- Compatible with the full range of GRIPPS® wrist tethers.

C5 FLEXILITE IMPACT MKII

ANSI/ISEA 121-2018
COMPLIANT

The all-new C5 FlexiLite Impact MKII retains all of the features and protection of previous models, whilst delivering a superior level of comfort.

Lightweight, highly flexible thermoplastic rubber has been reimagined into an ergonomic design on the rear of the glove, providing unparalleled protection and wearability.

With the C5 FlexiLite Impact MKII, whenever you're carrying your gloves around the worksite, you're also carrying a fully load rated drop prevention system. The patented tether anchor point is engineered directly into the glove and is load rated for any tool weighing up to 2.5kg/5.5lbs.

The C5 rated gloves are manufactured from an extra lightweight glass fibre yarn for the highest level of cut protection, and double-coated with a sandy foam nitrile combining maximum cut resistance and dexterity with long-lasting grip.

Ultra Armour TPR rear protection protects the wearer from impact and knocks to the back of the hand.

KEY FEATURES

- Extra lightweight and highly flexible glass fibre yarn provide maximum cut resistance.
- Double coated sandy foam nitrile for long-lasting grip.
- Ultra Armour TPR Rear protection against impact on backs of the hands.
- A load rated tether anchor everywhere you go.
- Maintain full usability of tools.
- Compatible with the full range of GRIPPS® wrist tethers.

SLIP-ON WRIST ANCHOR

ANSI/ISEA 121-2018
COMPLIANT

Lightweight, no-fuss and load rated, the Slip-On Wrist Anchor is a favourite amongst all trades.

Available in three different sizes, this cost-effective tether anchor is perfect for working with hand-tools at height.

Simply slip on, tether your tool and get to work.

KEY FEATURES

- Light, flexible & strong.
- Suitable for use with the full range of GRIPPS® wrist tethers.
- Built-in load rated tether anchor point.

ADJUSTABLE WRIST-ANCHOR

ANSI/ISEA 121-2018
COMPLIANT

Tether your hand tools with comfort and security using the Adjustable Wrist-Anchor. This 'one size fits all' wristband features a built-in, load rated tether anchor to tether hand tools to.

Industrial-grade Velcro repels dust, grease and grime to keep your Adjustable Wrist-Anchor firmly secured at all times, while tactical elastic webbing protects against tears.

KEY FEATURES

- Light, flexible & strong.
- Can be attached to hand-rails or your wrist.
- Industrial grade Velcro adjusts diameter to suit any wrist or rail size.
- Compatible with the full range of GRIPPS® wrist tethers.

SCAFFCLAW

An evolution in the lifting of scaffold tubes, the ScaffClaw replaces knots with interlocking sets of stainless steel teeth.

Quicker and safer than depending on personnel to tie a rope around scaffold tubes for lifting, just use the certified ScaffClaw – your 'all-in-one' scaffold tube lifting device.

Compatible with scaffold tubes 50mm-60mm/2.0"-2.5" in diameter, the design of the ScaffClaw allows it to strengthen its grip when the load weight increases, allowing it to lift up to 20kg/44lbs in weight.

The rotating load rated eyelet connects to virtually any kind of tether, giving you complete flexibility to integrate the ScaffClaw with existing lifting setups.

MAX LOAD: 20kg | 44lbs

CODE: H01095

KEY FEATURES

- Toothed stainless steel clamp that automatically increases strength with weight.
- Ergonomic plastic handles.
- Compatible with tubes that have a diameter of 50mm-60mm/2.0"-2.5".
- An integrated eyelet that is compatible with virtually any type of lanyard.

TOOL TETHERS

BUNGEE TETHERS

**DUAL-ACTION
7.0KG | 15LBS**

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01073

Lightweight and built to last, the Bungee Tether Dual-Action is as reliable as it is functional.

One of our most popular pieces of kit across all industries, the Bungee Tether Dual-Action features a dual-lock carabiner and elasticised webbing made from heavy-duty polyester.

Along with being incredibly lightweight, the elastic properties of the durable bungee material absorbs the downward force from a dropped tool.

When arresting the fall of a dropped tool, the Bungee Tether Dual-Action extends up to 40cm/16" to absorb the downward force from a dropped tool, stabilising the user while protecting against bounce-back.

KEY FEATURES

- Dual-action carabiner mounted on a swivel head.
- Lightweight & compact design.
- Heavy-duty elasticised webbing.
- Force absorption & bounce-back protection.
- Textured tail loop that connects to tool or anchor point.

Min Length: 90cm | 35"

Max Length: 1.3m | 51"

Max Load: 7.0kg | 15lbs

Dual-Action Carabiner

**DUAL CARABINER DUAL-ACTION
7.0KG | 15LBS**

**ANSI/ISEA 121-2018
COMPLIANT**

CODE: H01073D

The most popular tether in the GRIPPS® range, with an additional dual-action carabiner for even faster attachment.

This versatile tether with carabiners on both ends means you avoid spending time hitching your tether to an anchor point. It also provides the versatility of being able to move between anchor points without having to untether your tool.

Along with being incredibly lightweight, the elastic properties of the durable bungee material absorbs the downward force from a dropped tool.

When arresting the fall of a dropped tool, the Bungee Tether Dual-Action extends up to 40cm/16" to absorb the downward force from a dropped tool, stabilising the user while protecting against bounce-back.

KEY FEATURES

- Two dual-action carabiners with swivel heads.
- Lightweight & compact design.
- Heavy-duty elasticised webbing.
- Force absorption & bounce-back protection.

Min Length: 90cm | 35"

Max Length: 1.3m | 51"

Max Load: 7.0kg | 15lbs

Two Dual-Action Carabiners

CAT TOOL TETHERS

BUNGEE TETHERS

WEBBING TETHERS

SINGLE-ACTION 2.5KG | 5.5LBS

CODE: H01072

If you need a tool tethering solution that's simple, reliable and practical, then the Bungee Tether Single-Action has you covered.

Constructed from the same heavy-duty elasticised webbing as the rest of the GRIPPS® bungee range, there are no compromises when it comes to force-absorption or quality of materials.

A steel carabiner and anchoring loop secures any tool up to 2.5kg/5.5lbs from drops.

KEY FEATURES

- Steel single-action carabiner.
- Lightweight & compact design.
- Heavy-duty elasticised webbing.
- Textured tail loop that connects to tool or anchor point.
- Force absorption & bounce-back protection.

Min Length: 90cm | 35"

Max Length: 1.3m | 51"

Max Load: 2.5kg | 5.5lbs

Single-Action Carabiner

TRIPLE-ACTION 7.0KG | 15LBS

CODE: H01074

ANSI/ISEA 121-2018
COMPLIANT

Lightweight and built to last, the Bungee Tether Triple-Action is as reliable as it is functional.

One of our most popular pieces of kit across all industries, the Bungee Tether Triple-Action features a triple-action carabiner and elasticised webbing made from heavy-duty polyester.

Along with being incredibly lightweight, the elastic properties of the durable bungee material absorbs the downward force from a dropped tool.

When arresting the fall of a dropped tool, the Bungee Tether Triple-Action extends up to 40cm/16" to absorb the downward force from a dropped tool, stabilising the user while protecting against bounce-back.

KEY FEATURES

- Triple-action carabiner mounted on a swivel head.
- Lightweight & compact design.
- Heavy-duty elasticised webbing.
- Force absorption & bounce-back protection.
- Textured tail loop that connects to tool or anchor point.

Min Length: 90cm | 35"

Max Length: 1.3m | 51"

Max Load: 7.0kg | 15lbs

Triple-Action Carabiner

HEAVY-DUTY DUAL-ACTION 18KG | 40LBS

CODE: H01071

ANSI/ISEA 121-2018
COMPLIANT

Designed for heavy tools, the Bungee Tether Heavy-Duty Dual-Action features an over-sized dual-action carabiner, elasticised webbing made from heavy-duty polyester and a hi-vis wide tail loop with additional grip-weave to fasten securely to tools or anchor points.

Along with being incredibly lightweight, the elastic properties of the durable bungee material absorbs the downward force from a dropped tool.

When arresting the fall of a dropped tool, the Bungee Heavy-Duty Dual-Action extends up to 40cm/16" to absorb the downward force from a dropped tool, stabilising the user while protecting against bounce-back.

KEY FEATURES

- Dual-action carabiner.
- Lightweight & compact design.
- Heavy-duty elasticised webbing.
- Wide tail loop with additional grip-weave.
- Force absorption & bounce-back protection.

Min Length: 90cm | 35"

Max Length: 1.3m | 51"

Max Load: 18kg | 40lbs

Dual-Action Carabiner

HEAVY-DUTY DUAL-ACTION 15.9KG | 35LBS

CODE: H01076

ANSI/ISEA 121-2018
COMPLIANT

Ideal for securing large tools and equipment at height, the Webbing Tether Heavy-Duty Dual-Action is strong, light and dependable.

Industrial strength polyester webbing connects to a dual-action carabiner through a reinforced eyelet.

A tether length of 1.8m/71" provides greater flexibility to connect to tether anchor points while retaining a full range of motion when operating the tool/equipment.

KEY FEATURES

- Dual-action carabiner.
- Extra heavy-duty webbing.
- Large size dual-action carabiner.
- Ideal for securing large tools & equipment at height.
- Extended reach allowing for tether anchor-point flexibility.
- Wide tail loop with additional grip-weave.

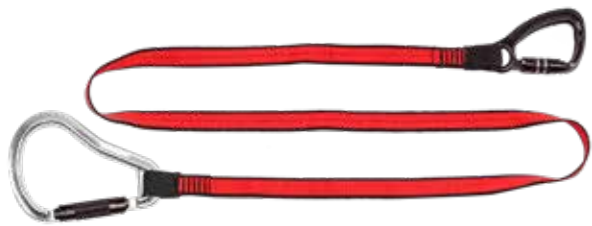

Length: 1.8m | 71"

Max Load: 15.9kg | 35lbs

Dual-Action Carabiner

WEBBING TETHERS

EXTRA HEAVY-DUTY DUAL-ACTION 36.9KG | 81LBS

CODE: H01079

Engineered for superior performance at height, the Webbing Tether Extra Heavy-Duty Dual-Action is load rated to a massive 36.9kg/81lbs.

A dual-action carabiner at each end enables tethering to a variety of anchor points and tool tether points, including scaffolding and rails, allowing you to work with heavy tools safely at height.

KEY FEATURES

- Two heavy-duty dual-action carabiners.
- Abrasion-resistant webbing.
- Lightweight design.
- Huge maximum load rating.

Length: 1.8m | 71"

Max Load: 36.9kg | 81lbs

Two Dual-Action Carabiners

COIL TETHERS

DUAL-ACTION 2.3KG | 5.0LBS

ANSI/ISEA 121-2018 COMPLIANT

CODE: H01069

Suitable for heavier hand tools, the Coil Tether Dual-Action combines the low profile of the GRIPPS® coil tether range with a heavier load rating.

Tethering to a tool belt, pouch, holster or harness, the two lightweight dual-action carabiners are mounted on swivel heads to prevent tangles and unnecessary tension while using your tool.

The extra-thick PU coating on the stainless steel coil prevents kinking and is resistant to heat and sharp edges.

KEY FEATURES

- Two lightweight dual-action carabiners.
- Suitable for holsters, belts, pouches & harnesses.
- Low profile & lightweight design.
- Extra thick PU coated stainless steel coil.
- Heat & cut resistant.

Min Length: 50cm | 20"

Max Length: 1.7m | 67"

Max Load: 2.3kg | 5.0lbs

Two Dual-Action Carabiners

SINGLE-ACTION 1.0KG | 2.2LBS

CODE: H01068

Tethering to a tool belt, pouch, holster or harness, the Coil Tether Single-Action is engineered to stay out of the way when not in use, readily extending to its maximum length when the tool is in use.

Lightweight single-action carabiners mounted on swivel heads prevent tangles and unnecessary tension while using your tool.

The extra-thick PU coating on the stainless steel coil prevents kinking and is resistant to heat and sharp edges.

KEY FEATURES

- Two lightweight single-action carabiners.
- Suitable for holsters, belts, pouches & harnesses.
- Low profile & lightweight design.
- Extra thick PU coated stainless steel coil.
- Heat & cut resistant.

Min Length: 40cm | 16"

Max Length: 1.6m | 63"

Max Load: 1.0kg | 2.2lbs

Two Single-Action Carabiners

COIL WRIST TETHER

SINGLE-ACTION 1.0KG | 2.2LBS (NON-CONDUCTIVE)

CODE: H01062

The Coil Wrist Tether Single-Action (Non-Conductive) tethers hand tools to the GRIPPS® range of gloves & wrist anchors.

The coiled design keeps the tether out of the way and minimises the risk of snags or tangles, while the thick PU materials used protects against heat and abrasion.

Swivel-head poly clips allow for total control and ease of use when using the tethered tool.

The combination of a PU coil and poly clips makes the Coil Wrist Tether Single-Action suitable for working in live electrical environments.

KEY FEATURES

- Two lightweight single-action poly clips.
- Low profile & lightweight design.
- Suitable for working in live electrical environments.
- Heat & abrasion-resistant.

Min Length: 17cm | 7.0"

Max Length: 77cm | 30"

Max Load: 1.0kg | 2.2lbs

Two Non-Conductive Poly Clips

WEBBING WRIST TETHERS

DUAL-ACTION
2.5KG | 5.5LBS

ANSI/ISEA 121-2018 COMPLIANT

CODE: H01060

The Webbing Wrist Tether Dual-Action features two strong, yet lightweight, dual-action carabiners that are mounted on swivel-heads.

Manufactured from an abrasion-resistant webbing, the Webbing Wrist Tether Dual-Action enables you to safely tether hand tools to GRIPPS® gloves or wrist anchors.

The Webbing Wrist Tether Dual-Action provides 360-degree mobility with the carabiners being mounted on swivel heads, meaning no more tangles or unnecessary tension on the tether when working with hand tools.

KEY FEATURES

- Two lightweight swivel-head dual-action carabiners.
- Abrasion-resistant webbing.
- Strong & lightweight
- Compatible with the full range of GRIPPS® gloves & wristbands.

Length: 25cm | 10"

Max Load: 2.5kg | 5.5lbs

Two Dual-Action Carabiners

SINGLE-ACTION
2.5KG | 5.5LBS

CODE: H01067

The Webbing Wrist Tether Single-Action is the most popular method of tethering hand tools to the GRIPPS® range of gloves and wrist anchors.

Manufactured from an abrasion-resistant webbing, the Webbing Wrist Tether Single-Action is exceptionally light.

Versatile enough for use with all hand tools, the Webbing Wrist Tether Single-Action provides 360-degree mobility with dual swivel-head carabiners, meaning no more tangles or unnecessary tension on the tether when working with tethered hand tools.

KEY FEATURES

- Two swivel-head single-action carabiners.
- Abrasion-resistant webbing.
- Strong & lightweight
- Compatible with the full range of GRIPPS® gloves & wristbands.

Length: 25cm | 10"

Max Load: 2.5kg | 5.5lbs

Two Single-Action Carabiners

COIL HARD HAT TETHERS

COIL HARD HAT TETHER

ANSI/ISEA 121-2018 COMPLIANT

CODE: H01070

Reliable and compact, the Coil Hard Hat Tether is so low-profile you won't even know you're wearing it.

The coil is manufactured from an industrial-grade PU, which delivers exceptional strength and ruggedness, suitable for industrial application.

With a highly secure metal clamp, combined with a tactical, lightweight design, the Coil Hard Hat Tether is compatible with virtually every hard hat on the market, connecting via a simple choke method.

KEY FEATURES

- Lightweight & low profile design.
- Extremely strong metal clamp.
- Industrial grade PU coil.

Min Length: 11cm | 4.0"

Max Length: 86cm | 34"

Max Load: 0.5kg | 1.1lbs

Steel Clamp

COIL HARD HAT TETHER (NON-CONDUCTIVE)

ANSI/ISEA 121-2018 COMPLIANT

CODE: H01075

With no metal components, the Non-Conductive Coil Hard Hat Tether is suitable for use in live electrical environments.

Reliable and compact, the Non-Conductive Coil Hard Hat Tether is so low-profile you won't even know you're wearing it.

The coil is manufactured from an industrial-grade PU, which delivers exceptional strength and ruggedness, suitable for industrial application.

The tactical, lightweight design is compatible with virtually every hard hat on the market, connecting via a simple choke method.

KEY FEATURES

- Non-conductive design.
- Lightweight and low profile design.
- Extremely strong poly clamp.
- Industrial grade PU coil.

Min Length: 11cm | 4.0"

Max Length: 86cm | 34"

Max Load: 0.5kg | 1.1lbs

Poly Clamp

WORKING AT
HEIGHT ASSOCIATION

COIL E-TETHERS

COIL E-TETHER WITH POLY CLIP (NON-CONDUCTIVE)

The Coil E-Tether With Poly Clip (Non-Conductive) contains no metal parts and is suitable for securing small electronic devices against drops in live electrical environments.

A single-action poly clip with a swivel head allows full freedom of movement without tangles while tethering your phone, camera, radio or other electronic devices.

A side-release attachment dock with a simple choking mechanism allows you to hot-swap any electronic device, providing a quick and secure solution to tethering cameras, cell phones, radios, and other small objects with a suitable existing loop/hang hole.

For devices that do not have a suitable existing loop/hang hole, use in combination with a GRIPPS® E-Catch to create a permanent tether anchor point on any surface.

KEY FEATURES

- Heavy-duty poly clip.
- Industrial grade PU coil.
- Non-conductive design.
- Compatible with the GRIPPS® E-Catch.

Code With E-Catch	H01061
Code Without E-Catch	H01063

TOOL GRAPPLE®

TOOL GRAPPLE®

Tough and versatile, the Tool Grapple® excels against the rigours of the harshest work environments.

Protected by a rubber ABS synthetic housing, the Tool Grapple® contains a PU coated stainless steel woven wire cable that is resistant to heat and abrasion.

The wire tether automatically retracts and is available with an auto-stopping function that takes the tension out of the tether when the attached tool is in use.

Able to be attached to a harness, work belt or wrist band, simply connect your tool to the Tool Grapple® via a GRIPPS® tool connector or tether.

KEY FEATURES

- 1.25m/49" auto-retracting wire cable tether.
- Rubber ABS synthetic housing.
- PU coated stainless steel woven wire cable tether.
- Can be anchored to a harness, work belt or wrist band.
- Available with or without auto-stopping function.

Code Without Auto-Stop	H01122
Code With Auto-Stop	H01123
Max Length: 1.25m 49"	
Max Load: 2.5kg 5.5lbs	

RETRACTABLE TETHERS

GEAR KEEPER TETHER WITH LOCK - 0.9KG | 2.0LBS

ANSI/ISEA 121-2018 COMPLIANT

CODE: H01127

Rugged and ready for industrial duty, the Gear Keeper Tether With Lock is packed full of features.

The stainless steel screw-lock carabiner gives maximum flexibility for tether anchorage, while the buckle allows rapid exchanging between multiple tools.

Protected against the elements and rated for industrial use, the housing box contains a locking retractor with a total reach of 1.5m/59".

KEY FEATURES

- Stainless steel dual-action carabiner.
- Locking retractor functionality.
- Buckle clip to instantly swap out tools.
- Includes retractor unit & 1 x Gear Keeper Tool Tether Connector.
- Available in two different sizes.
- Made in the USA.

Max Load: 0.9kg 2.0lbs	H01127
Max Load: 0.45kg 1.0lbs	H01128
Max Length: 1.5m 59"	
Dual-Action Carabiner	

GEAR KEEPER TOOL TETHER CONNECTOR

ANSI/ISEA 121-2018 COMPLIANT

CODE: H01129

The Gear Keeper Tool Tether Connector allows rapid exchanging between multiple tools when used with the Gear Keeper Dual-Action Retractable Tool Tether.

A Nylon cord provides shock protection against drops and is resistant to abrasion and industrial conditions.

KEY FEATURES

- Shock absorbing Nylon cord.
- Buckle clip to instantly swap out tools.
- Available in two different sizes.
- Made in the USA.

*Gear Keeper Tool Tether Connectors sold in packs of 10

Max Load: 0.45kg 1.0lbs	H01126
Max Load: 0.9kg 2.0lbs	H01129

RETRACTABLE TETHERS

CARABINER

T-REIGN GEAR TETHER WITH LOCK - 0.5KG | 1.0LBS

CODE: H01121

Secure your tool with confidence using the T-Reign Retractable Gear Tether With Lock.

The extremely strong Kevlar cord extends to 1.2m/79" while the rust and weather resistant mechanism delivers smooth and silent operation.

Tether and swap your tools instantly with the Click-Connect feature. Line-locking functionality allows you to set the length of your tether to take tension off the tether as you work.

KEY FEATURES

- Strong 1.2m/79" Kevlar cord, quiet smooth running & extremely strong.
- Click-Connect buckle allows for rapid exchanging between multiple tools.
- Rust & weather resistant hardware including high grade stainless steel spring, screws & gear loop.
- Durable poly-carbonate case protecting against weather & knocks.
- Lock system to keep gear tethered to any desired length.
- Safety breakaway end fitting that disengages from unit at approximately 11kg/24lbs of force.
- Made in the USA.

Max Length: 1.2m | 47"

Max Load: 0.5kg | 1.1lbs

T-REIGN CLICK-CONNECT END FITTING

CODE: H01121QC

Tether and swap your tools instantly with the T-Reign Click-Connect End Fitting.

Compatible with the T-Reign Retractable Gear Tether.

KEY FEATURES

- Click-Connect buckle allows for rapid exchanging between multiple tools.
- Safety breakaway & fitting that disengages from unit at approximately 11kg/24lbs of force.
- Made in the USA.

Max Load: 0.5kg | 1.1lbs

CABLE RETRACTOR UNIT 0.7KG | 1.5LBS

Replacement Cable Retractor Unit for all GRIPPS® retractor products including Tool Holsters and Tool Pouches.

Available with a steel retractable cable or with an auto-stopping retractable Kevlar cable.

KEY FEATURES

- Premium quality.
- Available with a steel or Kevlar cable
- Auto-stopping function available.
- Made in the USA.

Steel Cable Without Auto-Stop	H01120
Kevlar Cable With Auto-Stop	H01125

DUAL-ACTION CARABINER 2.5KG | 5.5LBS

CODE: H01093

This heavy-duty alloy Dual-Action Carabiner is designed specifically for tool tethering.

Lightweight and strong, a swivelling head promotes absolute flexibility of tool use, while preventing twists and tangles in the attached tether.

A deep-set gripping pattern on the dual-action mechanism prevents slippage during manipulation.

KEY FEATURES

- Constructed from strong & lightweight alloy.
- Auto-locking dual-action.
- Strong, proven design.
- Swivel head to prevent tangles in tether.
- Deep-set gripping surface to prevent slippage.
- Open gate width of 13mm/0.5".

Max Load: 2.5kg | 5.5lbs

Dual-Action Carabiner

**CATT
BAGS & POUCHES**

MULE BAG

ANSI/ISEA 121-2018 COMPLIANT

The champion of the GRIPPS® lifting bag range, the Mule Bag provides a broad range of transportation and work-site mounting options.

The tough design with multiple reinforcement points makes it one of the strongest lifting bags on the global market, purpose-built to operate and last in the harshest of workplace environments.

Tool transportation at height is no longer a juggling act with reinforced backpack straps allowing the Mule bag to be strapped on and carried, and a load rated lifting strap for when carrying heavier loads.

An armoured insert protects the wearers back from sharp contents, while also keeping the Mule Bag upright and supported while not being worn.

Designed with accessibility in mind, the width of the bag allows for manual transportation even when climbing up caged ladders.

The top opening can closed off via the heavy-duty zip, allowing you to secure bag contents against accidental spills.

If working on an Elevated Work Platform, use the mounting straps to create a mobile workstation, keeping your tools secure while your hands are free and your workspace is clear. Keep tools organised with a range of pockets, pouches and sheaths, including twin heavy-tool sleeves on the outside of the Mule Bag.

MAX LOAD (D-Ring)	MAX LOAD (Lifting)	HEIGHT	WIDTH	DEPTH
2.5kg 5.5lbs	80kg 176lbs	45cm 18"	37cm 15"	18cm 7.0"

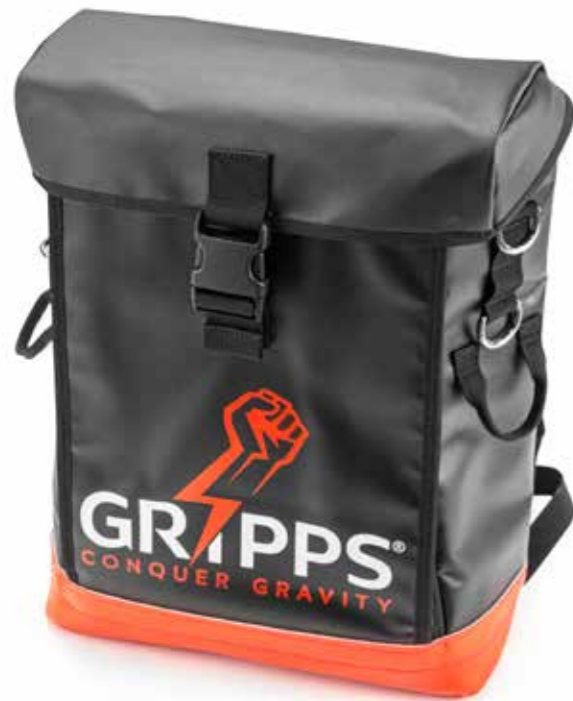

CODE: H01140

KEY FEATURES

- Width compatible with standard Ladder Cages.
- Reinforced backpack straps, EWP mounting straps & load rated lifting points.
- A strong composite insert in the base of the bag protects against punctures.
- Armoured insert for protection when wearing as a backpack.
- Load rated heavy-tool sleeves on both sides of the bag.
- Tether points inside & outside the bag for multiple tethering options.
- Multiple compartments inside the bag for tool storage & organisation.

MULE TOOL BACKPACK

Based on the same design as the best-selling GRIPPS® Mule Bag, the Mule Tool Backpack provides all of the same key functionality in a smaller, more compact design.

This lightweight and versatile bag is constructed from water-repellent PVC leather and Nylon materials. Extremely durable, the Mule Tool Backpack features additional reinforced material at the base, to protect against punctures.

If you're working near a rail or scaffolding, the load rated mounting straps allow you to secure the Mule Tool Backpack up off the ground.

Accessing the contents is made simple with a fold-out front panel supported by heavy-duty zips.

Stronger and more durable than a standard tool backpack, the Mule Tool Backpack is suitable for a range of worksite activities comfortably carrying power tools, hand-tools, accessories and other small objects.

Tool organisation is sorted with a range of sleeves, zip-pockets and Velcro pockets lining the interior of the bag. Twin external straps keep tools such as Hammers and Podger Bars always at hand.

Two retractable tether pouches compliment a total of eight load rated D-Ring tether anchors (four inside, four outside), ensuring that every tool can be safely tethered.

PATENT PENDING

MAX LOAD (D-Ring)	MAX LOAD (Straps)	HEIGHT	WIDTH	DEPTH
2.5kg 5.5lbs	20kg 44lbs	42cm 16"	32cm 13"	12cm 5.0"

CODE: H01141

KEY FEATURES

- Lightweight, durable & robust design.
- Made from water repellent PVC leather & Nylon fabric.
- Reinforced, puncture-proof base.
- Fold-out front panel.
- Load rated mounting straps for attaching to rails & scaffolding.
- Tool organisation sleeves, pockets & straps.
- Multiple internal & external load rated anchor points.

BISON BAG

Loaded with features, the Bison Bag provides a comprehensive solution to tool management, transportation and tethering for working at height.

Tether anchors inside and outside the bag keep tools secure and accessible, and an extra heavy-duty drawstring closure keeps contents secured against spills and drops.

Built for harsh industrial environments from extra heavy-duty 26oz. canvas, the Bison Bag protects against punctures with a composite insert built right into the base of the bucket.

A load rated lifting strap allows for easy transportation of the Bison Bag to the work area.

MAX LOAD (D-Ring)	MAX LOAD (Straps)	HEIGHT	DIAMETER
2.5kg 5.5lbs	45kg 99lbs	40cm 16"	30cm 12"

CODE: H01115

KEY FEATURES

- Heavy-duty drawstring closure protecting against spills & drops.
- Multiple inner pockets for comprehensive tool organisation.
- Puncture-proof composite insert in the bucket base.
- Tether anchor points on the inside & outside of the bucket.
- Constructed from extra heavy-duty 26oz canvas.

BULL BAG - 113KG | 249LBS

Arguably the most robust lifting bag in the world, the reinforced Bull Bag features a smart locking Velcro mesh sleeve that protects against accidental spills and drops while allowing light into the bag.

Load rated reinforced lifting straps allow for easy transportation of the Bull Bag to the work area, and built-in tether anchor points mean the tools are ready to be used as soon as the bag is opened.

Made from an extra heavy-duty and oil repellent vinyl, with a reinforced fabric rim to protect the opening from damage.

MAX LOAD (D-Ring)	MAX LOAD (Lifting)	HEIGHT	DIAMETER
2.5kg 5.5lbs	113kg 249lbs	38cm 15"	31cm 12"

CODE: H01110

KEY FEATURES

- Heavy-duty Velcro closure with locking feature protects against accidental spills.
- Load-rated fabric strip provides an additional 6 tether anchor points.
- Rubber feet protect the base of the bag & provide stabilisation on hard surfaces.
- A reinforced rim around the bag opening protects against damage.
- A strong composite insert in the base of the bag protects against punctures.
- Made with extra heavy-duty oil repellent vinyl & tested to last in the harshest of construction environments.
- Strong mesh sleeve allows light into the bag & keeps it rigid whilst upright.
- Built-in tether anchor points inside the bucket, enabling tools to be tethered directly to the inside of each bag.

ZIP-LOCK BAG - 30KG | 66LBS

ANSI/ISEA 121-2018 COMPLIANT

Lightweight and built for strength, the Zip-Lock Bag combines multiple levels of functionality into an extremely affordable package.

Constructed from water & puncture resistant Nylon, the Zip-Lock Bag features a heavy-duty type-10 Nylon zip to keep the reinforced lid shut and your contents secure. The load-rated lifting strap allows for flexibility in transportation, and a reinforced bottom ensures longevity in harsh conditions.

CODE: H01112

KEY FEATURES

- Puncture & water resistant.
- 10mm/0.4" heavy-duty Nylon zip.
- Certified lifting strap.
- Reinforced lid and bottom.

MAX LOAD	HEIGHT	DIAMETER
30kg 66lbs	46cm 18"	27cm 11.5"

LOCKJAW CLIMBERS BAG

ANSI/ISEA 121-2018 COMPLIANT

Robust, lightweight and packed with tether anchor points, the Lockjaw Climbers Bag keeps tools tethered and accessible whether they're inside or outside of the bag. A zip closure keeps contents safe and secure during transportation, while an in-built metal-snap mechanism holds the bag open and the contents accessible when on the job.

Heavy-duty tether anchors inside the bag complement an array of tether anchors on the outside, to ensure tools remain tethered during all stages of the job. Inner sleeves keep tools organised inside the bag.

CODE: H01135

KEY FEATURES

- Heavy-duty tether anchors installed inside & outside the bag.
- Heavy-duty zip closure for security against contents falling out.
- Metal snap-mechanism holds bag open or snaps it shut.
- Inner pockets for tool organisation.

MAX LOAD (D-Ring)	MAX LOAD (Lifting)	HEIGHT	DIAMETER
2.5kg 5.5lbs	10kg 22lbs	30cm 12"	20cm 8.0"

LIFTING BAG INSERT

Instantly transform your GRIPPS® Lifting Bag into a workable tool bag with the GRIPPS® Lifting Bag Insert.

Compatible with all GRIPPS® Lifting Bags, this heavy-duty Nylon insert holds the lifting bag open and provides multiple pockets for tool organisation.

The design of the insert allows the pockets to fit underneath the existing tether anchor points on the lifting bag, meaning all tools inside the bag and pockets can be 100% safely tethered.

CODE: H01109

KEY FEATURES

- Constructed from heavy-duty Nylon.
- 4 reinforced tool organisation pockets.
- Compatible with the following GRIPPS® lifting bags: H01110, H01115, H01112.

SIZE	DIAMETER RANGE
93cm x 27cm x 4.0mm 37" x 11" x 0.15"	27cm - 29cm 10" - 11"

SCAFFOLD TUBE LIFTING BAG

Safely lift, transport & store multiple scaffold tubes of up to 1.8m/71" in length with the GRIPPS® Scaffold Tube Lifting Bag, and create a safer and more efficient job site.

A Hypalon reinforced base on the bottom resists punctures, and the fully sealable enclosure at the top ensures that all contents of the bag stay safe and secure at all times.

Constructed with industrial-strength cotton canvas, the Scaffold Tube Lifting Bag is engineered to provide superior longevity and durability for all industrial construction and maintenance activities.

CODE: H01101

KEY FEATURES

- Lift & transport tubes up to 1.8m/71" in length.
- 6 load rated D-Rings around bag opening.
- Puncture, chemical & temperature resistant Hypalon reinforced base.
- Constructed from 26oz. cotton canvas.
- Pull-string enclosure to fully secure contents.

MAX LOAD (D-Ring)	MAX LOAD (Lifting)
2.5kg 5.5lbs	45kg 100lbs

TETHERING STATION-20T/25T

ANSI/ISEA 121-2018
COMPLIANT

KEY FEATURES

- Organises & tethers up to 20 or 25 tools.
- Mounting straps are compatible with EWP cages, scaffold tubing, & handrails.
- Reinforced stiff backing creates stable workstation.
- Extra heavy-duty 26oz. canvas.
- Suitable for working in low voltage electrical environments.

20T CODE: H01147

25T CODE: H01145

MODEL	SIZE (Width x Height)	MAX LOAD (D-Ring)
20T	60cm x 55cm 24" x 22"	3.0kg 6.6lbs
25T	90cm x 55cm 35" x 22"	3.0kg 6.6lbs

The 20 tool (GTS-20T) or 25 tool (GTS-25T) GRIPPS® Tethering Station is a fully functional mobile tethering workstation, suitable for a range of environments. Constructed from an extra heavy-duty 26oz. canvas, the minimal and isolated use of metals, combined with non-conductive tether anchors, make the GTS safe for works around live electricity.

For all works at height, attach the GTS to scaffold tubes, handrails or EWP cages using the load rated and hard-wearing straps. Reinforced eyelets allow the GTS to be hung via hooks or tied off with rope to suit virtually any other conceivable environment.

Supported by a rigid backboard that prevents twisting or distortion, the GTS is loaded with options for a complete tool kit-out. Dual general-purpose pouches are reinforced with inner-stitched plating - perfect for battery tools. A range of stretch-webbing and canvas sheaths keep your full kit of hand-tools, heavy's and equipment organised and accessible.

Strategically placed tether anchors ensure every tool is tethered and accessible at all times, with each tether anchor load rated and non-conductive. Two dual-action carabiners provide additional anchoring and tethering options.

BOLT-VAULT

ANSI/ISEA 121-2018 COMPLIANT

Patent Pending

The Bolt-Vault is designed to mitigate the risk of small objects used during live-edge works. The patented design creates a protected environment around the wearer's hand, while two reinforced interlace panels allow for the insertion of tools and working applications (such as bolt threads).

Constructed from heavy-duty Nylon, the Bolt-Vault has been strenuously tested in commercial environments to guarantee a long life under harsh working conditions. The tactical Nylon weave allows tools and other objects to come into the working environment while maintaining the integrity of the drop protection zone.

The Bolt-Vault is secured to the wrist with industrial-grade Velcro and features two integrated and load rated tether anchor points, allowing the user to attached tools of up to 2.5kg/5.5lbs each directly to the Bolt-Vault.

SIZE (Width x Height x Depth)	MAX LOAD (D-Ring)	MAX LOAD (Pouch)
11cm x 25cm x 13cm 4.25" x 10" x 5.0"	2.5kg 5.5lbs	2.5kg 5.5lbs

CODE: H02105

KEY FEATURES

- Creates an instant drop control environment around the wearer's hand.
- Constructed from heavy-duty Nylon.
- Folds down to a standard glove size when not in use.
- Two reinforced mesh windows allow you to see objects inside.
- Two tactical Nylon weave panels allow insertion of tools/objects.

BOLT-SAFE POUCH

ANSI/ISEA 121-2018 COMPLIANT

A 'best in class' self-closure system makes it almost impossible for loose nuts, bolts and other small items to fall out of the Bolt-Safe Pouch.

Even when turned upside down and shaken vigorously, the Bolt-Safe Pouch keeps all contents trapped safely inside. Attaches to a belt, harness, scaffold tube or railing with a load rated Velcro strap.

The Bolt-Safe Pouch self-closure system allows for easy retrieval of contents, even when wearing gloves.

The automatic self-closure system means no effort is required to keep contents trapped and secure.

SIZE (Width x Height x Depth)	MAX LOAD (D-Ring)	MAX LOAD (Pouch)
22cm x 26 cm x 9.0cm 8.5" x 10" x 3.5"	2.5kg 5.5lbs	5.0kg 11lbs

CODE: H02101

KEY FEATURES

- Keeps objects such as nuts, bolts, screws etc. securely enclosed.
- Fits easily onto most tool belts & can easily be fitted to harnesses & rails using the Velcro strap.
- Canvas material that repels oil & is easy to wipe clean.
- Reach-in retrieval & automatic self-closure means no more lids or zips.

BOLT-SAFE RAIL BAG

ANSI/ISEA 121-2018 COMPLIANT

Building on the legacy of the Bolt-Safe Pouch, the Bolt-Safe Rail Bag features the same 'best in class' self-closure system that makes it almost impossible for loose nuts, bolts and other small items to fall out.

The Bolt-Safe Rail Bag attaches to belts, railing, harnesses and scaffold tubes with its load rated straps.

Even when turned upside down and shaken vigorously, the Rail Bag keeps all contents trapped safely inside.

A reinforced mesh window allows light into the pouch, eliminating the guessing game of trying to find items in the pouch by touch alone.

SIZE (Width x Height x Depth)	MAX LOAD (Pouch)
24cm x 30cm x 9cm 9.5" x 12" x 3.5"	5.0kg 11lbs

CODE: H02102

KEY FEATURES

- Keeps small objects such as nuts, bolts, screws etc. securely enclosed.
- Attaches easily to tool belts, harnesses & rails.
- Made from tough canvas that repels oil & is easy to wipe clean.
- Reach-in retrieval and automatic self-closure means no more lids or zips.
- Reinforced mesh window allows light inside the pouch.

LOCKJAW RIGGERS BAG

ANSI/ISEA 121-2018 COMPLIANT

This practical tool bag packs a heap of features that make tool organisation, access and storage a breeze.

Featuring a robust metal snap frame built into the zip, the Lockjaw Riggers Bag can be locked open or closed, allowing you to access all contents of the bag without having to work around a flimsy lid.

Suited for a variety of small objects and hand tools, the inner lining features a variety of pouches, pockets and sleeves to keep everything at hand and organised.

Six internal and four external load rated D-Rings give you total flexibility with tethering all contents against drops.

Load rated sewn-in loops allow for the Lockjaw Riggers Bag to be attached to a tool belt, harness, belt, chest or over the shoulder.

SIZE (Width x Height x Depth)	MAX LOAD (D-Ring)	MAX LOAD (Pouch)
23cm x 26cm x 10cm 9.0" x 10" x 4.0"	2.5kg 5.5lbs	5.0kg 11lbs

Patent Pending

CODE: H02106

KEY FEATURES

- A metal snap frame that allows the bag to be locked open or closed.
- Industrial strength zip to totally secure contents.
- Inner sleeve tool organisation pockets, sleeves & pouches.
- A total of 10 load rated D-Rings to anchor tethers to.
- Can be attached to work belts & harnesses in a variety of locations.
- Suitable for hand tools, small objects & materials.

TOOL BELTS & HOLSTERS

WORK BELTS

TOOL BELTS & HOLSTERS

COMFORT WORK BELT WITH BACK SUPPORT

ANSI/ISEA 121-2018 COMPLIANT

CODE: H01116

The GRIPPS® Comfort Work Belt With Back Support introduces a new level of wear-ability and safety to workers operating at height, alongside a swag of features. One of the lightest in its class, the Comfort Work Belt also packs 'Ergo-Motion' back support to provide ultimate comfort.

Compatible with all GRIPPS® holsters and pouches, the Comfort Work Belt allows full customisation of composition and layout so you can work the way you want to. The form-poly belt support has a heavy-duty Cordura structure, providing exceptional longevity.

KEY FEATURES

- Allows for full customisation of holster & pouch layout.
- Multiple load rated tether anchors for tether attachment.
- Engineered 'Ergo-Motion' back support for ultimate comfort.
- Amazingly lightweight.
- 'Ergo-Motion' design engineered to spread the weight of a loaded belt evenly on the user.
- Heavy-duty Cordura structure.
- Reinforced form-poly belt support.
- Dual pin belt buckle.

Max Load (D-Ring): 2.5kg | 5.5lbs

One Size Fits All

REINFORCED SYNTHETIC WORK BELT

CODE: H01119

Cutting edge ergo-dynamics engineered with work site toughness is what you can expect from the GRIPPS® Reinforced Synthetic Work Belt.

The 'Ergo-Motion' design with reinforced form-poly belt support provides absolute comfort to the wearer, while the heavy-duty Cordura structure ensures it survives the wear and tear in the most demanding conditions.

KEY FEATURES

- Compatible with the Ergo-Motion Back Support.
- Heavy-duty Cordura structure.
- Reinforced with form-poly belt support.
- Dual pin belt buckle.
- 'Ergo-Motion' design for maximum comfort.

One Size Fits All

ECONO BELT

Carry up to three tools or holsters with one of the lightest work belts in the world.

Made from an exceptionally strong Nylon weave, it also features a full-length Velcro inlay, allowing you to set the length of the belt to any size between 71cm/28" and 1.2m/48".

The lightweight side release buckle makes the GRIPPS® Econo Belt a breeze to take on or off - or even use as a stabilising strap for tool transportation such as the Mule Bag.

KEY FEATURES

- Ultra-lightweight and strong Nylon belt.
- Adjustable to any length with Velcro inlay.
- Heavy-duty POM side release buckle.

CODE: H01114

MAX LOAD: 15kg | 33lbs

BELT-LOOP ANCHOR

ANSI/ISEA 121-2018
COMPLIANT

Compatible with all 50mm/2.0" work belts, the Belt-Loop Anchor creates an instant load rated tether anchor on your work belt.

Made from the same abrasion resistant webbing as the GRIPPS® Webbing Tether range, the Belt-Loop Anchor is extremely hard-wearing.

To use, simply thread your work belt through the Belt-Loop Anchor and anchor your tether to the D-Ring.

KEY FEATURES

- Closed D-Ring prevents warping.
- Made from abrasion resistant webbing.
- Compatible with all standard work belt sizes.

CODE: H01142

MAX LOAD: 2.5kg | 5.5lbs

ERGO-MOTION BACK SUPPORT

ANSI/ISEA 121-2018
COMPLIANT

The Ergo-Motion Back Support is an amazingly comfortable back support with 4 load rated tether anchor points built-in.

Compatible with the Reinforced Synthetic Work Belt, the Ergo-Motion Back Support turns any standard 50mm/2.0" work belt into a comfortable, supportive and functional belt for working at height with tools.

KEY FEATURES

- 4 load rated tether anchors.
- Amazingly comfortable.
- Compatible with the GRIPPS® Reinforced Synthetic Work Belt & Econo Belt.

CODE: H01118

MAX LOAD (D-Ring): 2.5kg | 5.5lbs

BOA HOLSTER

ANSI/ISEA 121-2018
COMPLIANT

The Battery Operated Arrest (BOA) Holster keeps battery-operated hand tools secured and at hand. Compatible with any standard tool belt, the self-locking hook immediately captures and secures your tool by simply dropping it into the holster.

Ideal for scaffolders, roofers or construction professionals who work at height and need free hands for productivity and safety, the BOA Holster simplifies tool holstering with its single-handed operation.

KEY FEATURES

- Made from industrial strength, lightweight plastic.
- Spring loaded mechanism immediately traps battery operated hand tools in the holster.
- Compatible with virtually any work belt.

CODE: H02031

MAX LOAD: 5.0kg | 11lbs

CLAW HAMMER HOLSTER

ANSI/ISEA 121-2018
COMPLIANT

Compatible with all standard work belts, the Claw Hammer Holster keeps your hammer secure and easily accessible.

A high-quality Nylon strap secures the hammer with a snap-lock button.

Two load-rated D-Rings allow you to tether your tool to the holster keeping it secure against drops.

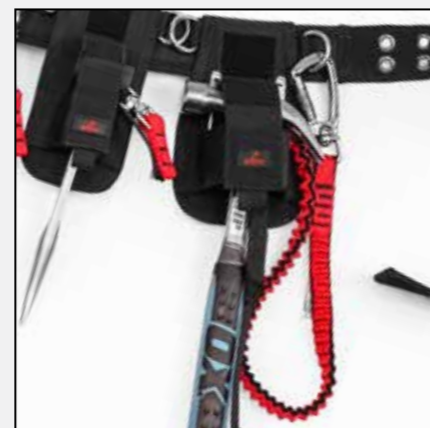

MAX LOAD: 2.5kg | 5.5lbs

CODE: H02062

KEY FEATURES

- Compatible with all standard work belts.
- Snap-lock button to secure the hammer in the holster.
- 2 x load rated D-Rings.
- Lightweight design with industrial toughness.

SINGLE TOOL HOLSTER

ANSI/ISEA 121-2018
COMPLIANT

Suitable for a wide range of handheld tools, the Single Tool Holster provides a simple, secure and accessible solution for working with handheld tools at height.

Engineered from robust, lightweight material, this holster is ideal for tools such as nips, torpedo levels and wire cutters.

MONITOR/RADMAN HOLSTER

ANSI/ISEA 121-2018
COMPLIANT

Compatible with a wide range of monitors, including RadMan's, the Monitor/RadMan Holster allows safe transportation and operation of monitors when working at height.

Easily mounted to either work belts or harnesses, the Monitor/RadMan Holster uses a two-way Velcro mounting sleeve to secure itself to the user.

Use in conjunction with a GRIPPS® Coil E-Tether with E-Catch.

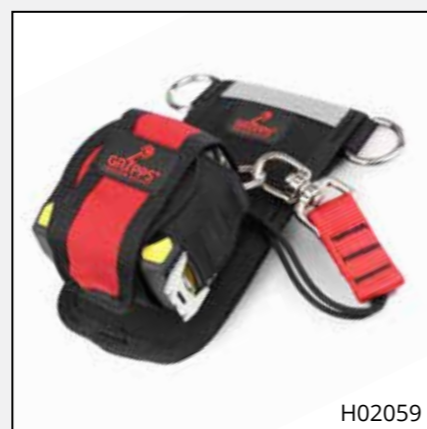

MAX LOAD: 0.5kg | 1.1lbs

CODE: H02056

KEY FEATURES

- Can be worn on or off a work belt.
- Compatible with the GRIPPS® Tape Measure Latch & Tape Measure Holster.
- Compatible with virtually all tape measure brands and sizes from 5m - 8m/16.5' - 26'.
- Maintains full tape measure functionality while secured.

H02059

CODE: H02036

H02091

INSULATED WATER BOTTLE/SPRAY CAN HOLSTER

Keep drinks cool and spray cans secure with the Insulated Water Bottle/Spray Can holster.

Constructed from synthetic rubber that insulates against heat, the top securing flap has been engineered to allow full functionality of a spray can from within the holster, as well as access to water bottle pop-tops and screw tops.

A load-rated poly D-Ring allows the holster and its contents to be tethered securely against drops.

If carrying on a belt, the Insulated Water Bottle/Spray Can Holster can be clipped on using the in-built metal clip.

MAX LOAD: 0.75kg 1.6lbs

CODE: H02038

KEY FEATURES

- Insulated synthetic rubber design that can stretch to accommodate most sizes of bottles & cans.
- Full functionality of spray cans & screw/pop-top water bottles whilst in the holster.

TOOL BELTS & HOLSTERS

BATTERY CATCH HOLSTER

ANSI/ISEA 121-2018
COMPLIANT

A real game-changer when it comes to securing power tools for working at height, the Battery Catch Holster combines hot-swap flexibility with zero operational impact.

A reinforced Nylon housing with adjustable strap makes the Battery Catch Holster compatible with virtually all power tool brands.

By turning your battery pack into a hot-swappable tool tether point, you can rapidly tether power tools as required by simply plugging in the battery.

Traditional tethering methods for power tools, such as tether anchors and hitch's, impact usability by taking up grip space.

The Battery Catch Holster avoids this through intelligent, flexible design that keeps right out of the way when you're working

MAX LOAD: 4.5kg | 10lbs

CODE: H02032

KEY FEATURES

- Tethers your power tool & battery in a singular holster.
- Compatible with virtually all power tool brand batteries.
- Ability to remove & plug battery into power tools whilst inside the holster.
- Tough reinforced Nylon housing for long term durability.
- No impact on power tool usability.

DROP MATS

MODULAR DROP MAT

Made from a heavy-duty, self-extinguishing canvas, The GRIPPS® Modular Drop Mat provides a safe personal work area for works conducted on Gridmesh or steel grate flooring.

Gridmesh and steel grate flooring present one of the highest risks when it comes to dropped object incidents. The Modular Drop Mat mitigates this by allowing workers to conduct virtually any task without fear of small objects falling through the mesh.

Conveniently located, load rated tether anchor points, allow workers to attach any tool weighing up to 3.0kg/6.6lbs to the mat itself. Velcro knee pads add an extra level of practicality and comfort, with the added benefit of being able to be moved around and reattached to the drop mat to suit different work environments.

Raised edges prevent tools and objects from rolling off the mat, and a reinforced zip running along each side allows you to connect multiple Modular Drop Mats for even broader coverage.

Transportation is made simple as the Modular Drop Mat folds up into a handy parcel size with twin carabiners that connect to matching docking points on the GRIPPS® Mule Bag.

SIZE WHEN OPEN (Width x Height x Depth)	SIZE WHEN FOLDED (Width x Height x Depth)	MAX LOAD (D-Ring)
110cm x 110cm x 5.0cm 43" x 43" x 2.0"	53cm x 28cm x 9.0cm 21" x 11" x 3.5"	3.0kg 6.6lbs

CODE: H01307

KEY FEATURES

- Heavy-duty 26oz. self-extinguishing canvas.
- Moveable Velcro kneeling pads.
- Eight load rated D-Rings for tethering tools.
- Zips on each side allow you to attach an unlimited number of Drop Mats to each other.
- Folds up and attaches directly to the GRIPPS® Mule Bag through purpose-made carabiners.

DROP MATS

DROP MATS

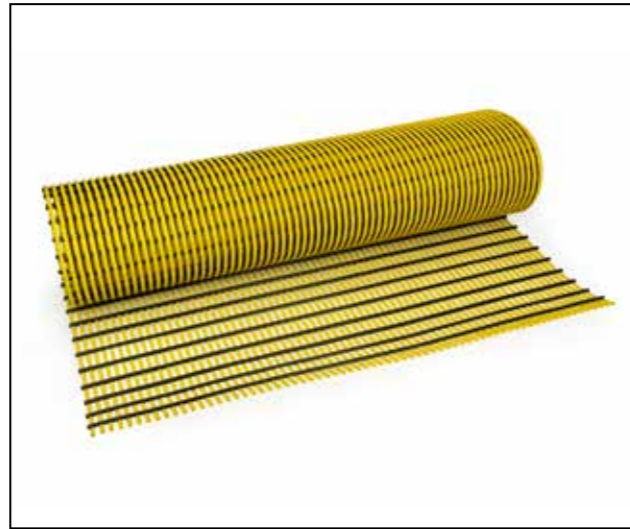

GRIPPAIR

GrippAir is designed and manufactured in Australia from non-toxic food grade PVC tubes, providing excellent longevity as well as comfort and support underfoot.

Constructed in a grid formation, GrippAir is both flame and chemical resistant and can be installed in minutes on even or uneven surfaces. Easy to roll up and clean, GrippAir is reusable and can be cut to any size or shape.

KEY FEATURES

- Long lasting, reusable, easy to fit & clean.
- Chemical, oil & acid-resistant.
- Excellent slip resistance.
- Suitable for marine environments.
- UV resistant.
- Made from 100% food grade materials.
- Made in Australia.

Resistant to flame DIN 4102 part 1
Classification B2 Limiting Oxygen index 20
Self Extinguishing

SIZE	CODE
90cm x 10m 3.0' x 33'	H01315-90

DROP MATS

FR DROPPED OBJECT PREVENTION MAT

Fire retardant and cost-effective, the FR Dropped Object Prevention Mat allows personnel to work on grating while protecting their tools and equipment from falling through the grating.

The FR Dropped Object Prevention Mat is easy to carry and work on. Highly effective in protecting personnel and contractors from dropped objects, the high-quality fabric has a reinforced 'safety yellow' hem to secure the sides of the mat.

KEY FEATURES

- Fire retardant.
- 6 x Tether anchors (Webbing & D-Ring).
- Eyelets around perimeter.
- High quality fabric.
- Reinforced 'safety yellow' hem.

SIZE	CODE:
2.5m x 1.0m 98" x 39"	H01305

GRIPPGRID FR GRIDMESH MATTING

This heavy-duty reusable matting is designed to eliminate dropped object hazards by effectively encapsulating gridmesh platforms.

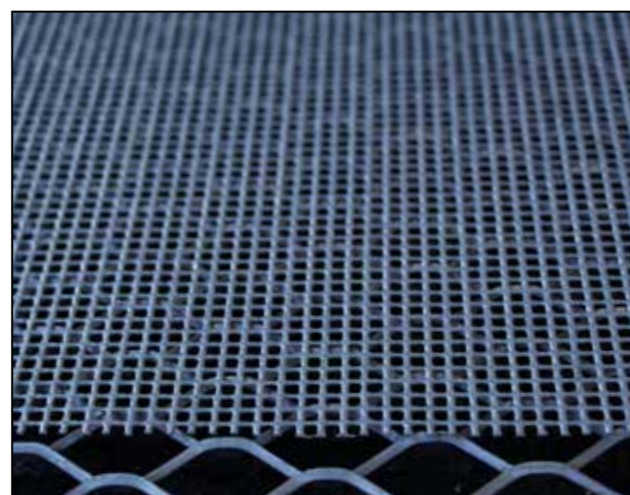

Suitable for all height works conducted on gridmesh platforms, GrippGrid provides a cost-effective drop matting that can be reused multiple times.

Shade cloths and other similar disposable products are costly, wasteful, short-lasting and have a negative impact on the environment during disposal.

GrippGrid matting is non-slip, fire resistant, and reusable making it the ideal choice for gridmesh platform works.

KEY FEATURES

- Non-slip texture provides excellent grip even when wet.
- Can be used multiple times.
- Heavy-duty & long-lasting.
- Fire resistant.
- Very high UV resistance.
- Available in 2 different weights.

SIZE	WEIGHT	CODE
1.87m x 25m 6' x 82'	430 G/M ²	H01316
1.87m x 25m 6' x 82'	530 G/M ²	H01317

FOAM EDGE DROPPED OBJECT PREVENTION MAT

The Foam Edge Dropped Object Prevention Mat is made from tough, heavy-duty material with a 5.0cm/2.0" foam edge.

Lightweight and extremely functional, it can be rolled or folded up when not in use for ease of transportation and storage.

KEY FEATURES

- Made from heavy-duty material.

SCAFFOLDERS KITS

5 TOOL RETRACTABLE UK

CODE: K02023

The fully tethered Retractable 5 Tool UK Scaffolders Kit comes assembled with four quality tools and retractable steel tethers, designed specifically for the UK market, all installed on a premium reinforced form-poly belt.

Holster your power tools quickly and securely with the included BOA holster and Tool Grapple®. The self-locking hook immediately captures and secures your power tool by simply dropping it into the holster.

Lightweight, functional and extremely heavy-duty, these kits are engineered to provide today's Scaffolder with a tool system that out-performs expectations and is recognized as 'best practice' in the industry.

KEY FEATURES

- Ultra-lightweight and strong Nylon belt with 5 holsters.
- Certified and load rated.
- Rigorously site tested.
- Cost effective.

KIT CONTENTS

- 1 x H01119 Reinforced Synthetic Work Belt
- 1 x H02055 Retractable Tape Measure Holster
- 1 x H02056 Tape Measure Catch
- 1 x H02048 Retractable Ratchet/Wrench Holster
- 1 x H02049 Retractable Scaffold Key Holster
- 1 x H02019 Retractable Single Tool Holster With Auto-Lock
- 4 x H01021 Swivel Catch
- 2 x H01030 Screwlock Cable
- 1 x K00045 Steel Scaffold Key 7/16
- 1 x D17010 Stabila Scaffolders Level
- 1 x D25010 Scaffolders Tape Measure
- 1 x H01122 Tool Grapple®
- 1 x H02031 BOA Battery Tool Holster

FORMWORKERS KIT

5 TOOL RETRACTABLE (BOLT-SAFE POUCH EDITION)

CODE: K02030

The fully tethered Retractable 5 Tool Formworkers Kit comes assembled with five quality tools and retractable steel tethers, installed on a premium reinforced form-poly belt.

Lightweight, functional and extremely heavy-duty, these kits are engineered to provide today's Formworker with a tool system that out-performs expectations and is recognized as 'best practice' in the industry.

KEY FEATURES

- Bolt-Safe Pouch to secure small items such as nuts and bolts.
- Reinforced form-poly belt with 5 holsters.
- Certified and load rated.
- Rigorously site tested.
- Lightweight and ergonomic.

KIT CONTENTS

- 1 x H01119 Reinforced Synthetic Work Belt
- 1 x H02101 Bolt-Safe Pouch
- 1 x H02018 Retractable Single Tool Holster
- 2 x H02048 Retractable Ratchet/Wrench Holster
- 1 x H02055 Retractable Tape Measure Holster
- 1 x H02062 Claw Hammer Holster
- 1 x H01073 Bungee Tether Dual-Action
- 1 x H02056 Tape Measure Catch
- 1 x D25010 Scaffolders Tape Measure
- 1 x D13001 Claw Hammer
- 1 x D28313 Shifter 10"
- 1 x K00070 Scaffold Ratchet
- 1 x D22060 Knipex Nips

5 SKIN RETRACTABLE (BOLT-SAFE POUCH EDITION)

CODE: K02031

Complete with five retractable holsters and a Bolt-Safe Pouch on a Reinforced Synthetic Work Belt, the 5 Skin Scaffolders Kit enables the wearer to customise their tooling.

The GRIPPS® range of holsters and pouches feature load rated attachment points for tethering, as well as load rated retractable steel tethers.

KEY FEATURES

- Bolt-Safe Pouch to secure small items such as nuts and bolts.
- Five Holsters with retractor units.
- Load rated tether anchors for additional tethering points.
- Premium quality and lightweight.

KIT CONTENTS

- 1 x H01119 Reinforced Synthetic Work Belt
- 1 x H02101 Bolt-Safe Pouch
- 1 x H02018 Retractable Single Tool Holster
- 2 x H02048 Retractable Ratchet/Wrench Holster
- 1 x H02055 Retractable Tape Measure Holster
- 1 x H02062 Claw Hammer Holster

BATTERY TOOL HOLSTER BELT RETRACTOR KIT

CODE: H02031P

Protect your battery power tools against drops with this economic kit.

Create an instant load-rated tool connector point by choking the Swivel Catch around the closed handle of your power tool, then tether to your work belt via the retracting Tool Grapple®.

Simply drop your power tool into the BOA Holster to keep it secure at all times when not in use.

KIT CONTENTS

- 1 x H02031 BOA Holster
- 1 x H01021 Swivel Catch
- 1 x H01122 Tool Grapple®

BATTERY CATCH HOLSTER BELT RETRACTOR KIT

CODE: H02032P

Protect your battery power tools against drops with this economic kit.

Compatible with all standard work belts, the retractable Tool Grapple® connects to your battery tool via the easy to install Battery Catch Holster, which creates a load rated tool connector point by securing around the battery of your power tool.

Simply drop your power tool into the BOA Holster to keep it secure at all times when not in use.

KIT CONTENTS

- 1 x H02031 BOA Holster
- 1 x H02032 Battery Catch Holster
- 1 x H01122 Tool Grapple®
