

Incredibly strong haul bag designed for transporting gear and vertical hauling.

Constructed from super-stiff and amazingly wear-resistant Tarpaulin TPU 4500D.

Shoulder straps can be tucked into a streamlined compartment and the waist belt can be removed to prevent snagging when traveling and hauling. Robust haul straps, guaranteed for loads up to 80 kg, are equipped with lifting handles that are large enough to be used with gloves. Roll top lid with pull cord closure and security strap. Interior security pocket and four interior gear loops.

Two versions: 40 and 70 liter.

Shoulder straps can be tucked into a compartment and the belt can be removed to prevent snagging when traveling and hauling
