DATASHEET

SKYSAFE PRO+

The SKYSAFE PRO+ is a lanyard with flexible arms and ultra-compact shock absorber that covers a weight range from 50 to 150 kg and reduces the force to less than 6 kN with a maximum fall arrest distance of 1.75 m. In the event of a fall, the sewn-in RESCUE LOOPS allow the casualty to be lifted with a rescue device, relieving the load on the carabiner and facilitating rescue. Available in four different versions with different carabiner combinations.

- Compact shock absorber for high freedom of movement
- Universally applicable thanks to wide weight range from 50 to 150 kg
- Quick and easy rescue thanks to integrated RESCUE LOOPS
