H10001 SAFETY GLASSES TETHER MKII

Lightweight and durable eyewear retention designed for industrial use.

Keep safety glasses, prescription eyewear, and sunglasses securely retained on the job—without sacrificing comfort.

The GRIPPS® Safety Glasses Tether MKII is a load-rated eyewear-retention PPE solution—preventing eyewear from dropping or being lost on the job. Featuring silicone rubber grips that securely hold a wide range of safety glasses, an adjustable cord lock for a comfortable fit, this tether is built for daily use with durable nylon paracord construction.
